INDEPENDENT AUDITOR'S REPORT

To the Commissioners
Sabine-Neches Navigation District - Jefferson County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of the Sabine-Neches Navigation District - Jefferson County Texas (the District), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Sabine-Neches Navigation District - Jefferson County, Texas' basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Sabine-Neches Navigation District - Jefferson County, Texas, as of September 30, 2022, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sabine-Neches Navigation District - Jefferson County, Texas and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

As discussed in Note 8 to the financial statements, in the year ended September 30, 2022, the District adopted new accounting guidance, GASBS No. 87., Leases. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Sabine-Neches Navigation District - Jefferson County, Texas' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sabine-Neches Navigation District - Jefferson County, Texas' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sabine-Neches Navigation District - Jefferson County, Texas' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and supplementary information on pages 4 through 9 and 44 through 47 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Texas Supplementary Information on pages 48 through 57 but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

SABINE-NECHES NAVIGATION DISTRICT
Jefferson County, Texas

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2022

As management of the Sabine-Neches Navigation District, Jefferson County, Texas (the "District"), we offer readers of the District's basic financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended September 30, 2022. We encourage readers to consider the information presented here in conjunction with the financial statements and notes thereto, which follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of the following: 1) Government-wide financial statements, 2) Fund financial statements, and 3) Notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information of all of the District's assets, and deferred outflows and deferred inflows of resources and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (i.e., uncollected property taxes).

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Sabine-Neches Navigation District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

All of the District's basic services are included in the governmental fund, which focus on how resources flow in and out with the balances remaining at the year-end that are available for spending. The governmental funds statements provide a detailed short-term view to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's activities. Because this information does not encompass the additional long-term focus of the government-wide statements, we describe the relationship between governmental activities and governmental funds through the reconciliations and in the notes to the financial statements.

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2022

FINANCIAL HIGHLIGHTS

- The net position for the District at September 30, 2022 was \$159,590,031.
- The District's net position increased by \$20,506,386 for the year ended September 30, 2022.
- The District continues to fund the Sabine-Neches Waterway Security Operations in conjunction with the Jefferson County Sherriff's Office. Upon request by the office of Homeland Security through the office of the U.S. Coast Guard Captain of the Port of Port Arthur, the Jefferson County Sherriff's Office and the Sabine-Neches Navigation District cooperate to provide and enhance services for the enforcement of maritime safety and security zones of the Sabine-Neches Waterway (SNWW). The District levies a security service fee on cargo-tonnage delivered to SNWW terminals to fund security operations.
- The District continues to act as non-Federal sponsor for the Sabine-Neches waterway to the U.S. Army Corps of Engineers (USACE). Under the Partner Cooperation Agreement, Congressionally authorized in 1962 between the District and USACE, the Sabine-Neches Navigation District funds 100% of dredge material placement area maintenance and acquisition of lands, as well as the local share of the federal ship channel project.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2022

FINANCIAL ANALYSIS

A portion of the District's total net position (8.67%) reflects its investment in capital assets (e.g., land, structures, and furniture and equipment) net of related debt. The District uses these assets to provide services to its citizens; consequently, these assets are not available for future spending. The restricted portion of the District's total net position (75.93%) is restricted for debt service, special revenue (waterway security), capital projects, and promotion and development.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity -

The District was created July 12, 1909, following a favorable election held July 3, 1909 pursuant to the provisions of Article 3, Section 52 of the Texas Constitution. The creation is recorded in Volume 5, Page 244, of Minutes of Commissioners' Court of Jefferson County. During 1987, the name of the District was changed from Beaumont Navigation District of Jefferson County to Jefferson County Navigation District. Pursuant to legislation passed in 2001, the District's name was changed to Jefferson County Waterway and Navigation District and following a favorable election, the district changed to an Article 16, Section 59 Texas Constitution District with boundaries co-extensive with Jefferson County, Texas, along with all powers given to such a district pursuant to Chapters 49, 60, and 62 of the Texas Water Code. Effective September 1, 2008, the District's name was changed to Sabine-Neches Navigation District of Jefferson County, Texas, pursuant to House Bill No. 3634 enacted by the Legislature of the State of Texas. At the times of the District's name changes, all debt documents of the District were also changed to reflect the new names.

The accounting and reporting policies of the District relating to the funds included in the accompanying financial statements conform to generally accepted accounting principles applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication entitled *Audits of State and Local Governmental Units* and by the Financial Accounting Standards Board (when applicable). The more significant accounting policies of the District are described below.

The District's financial statements include the accounts of all District operations. The criteria for including organizations as component units with the District reporting entity, as set forth in Section 2100 of GASB's *Codification of Governmental Accounting and Financial Reporting Standards*, include whether -

- the organization is legally separate (can sue and be sued in their own name).
- the District holds the corporate powers of the organization.
- the District appoints a voting majority of the organization's board.
- the District is able to impose its will on the organization.
- the organization has the potential to impose a financial benefit/burden on the District.
- there is fiscal dependency by the organization on the District.

Based on the aforementioned criteria, the District has no component units.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation -

The government-wide financial statements (the statement of net position and governmental funds balance sheet and statement of activities and governmental funds revenues, expenditures and changes in fund balance) report information on all of the activities of the District. They include all funds of the District.

Governmental funds are those funds through which most governmental functions are typically financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The District has presented the following major governmental funds.

General Fund - The general fund is the main operating fund of the District. This fund is used to account for all financial resources devoted to financing the general services that the District performs. General tax revenues and other sources of revenue used to finance the fundamental operations of the District are included in this fund. The fund is charged with all costs of operating the District for which a separate fund has not been established.

Special Revenue Fund - The special revenue fund is used to provide waterway security services for businesses along the Sabine-Neches Waterway. The District collects fees from the various businesses based on tonnage shipped each month. The District contracts the waterway security services out to the Jefferson County Sheriff's department.

Debt Service Fund - The debt service fund is used to account for the accumulation of financial resources for the payment of principal, interest and related costs on general long-term debt paid primarily from taxes levied by the District. The fund balance of the debt service fund is reserved to signify the amounts that are restricted exclusively for debt service expenditures.

Capital Projects Fund - The capital projects fund is used to account for the financial resources to be used for the acquisition or construction of major capital facilities.

C. Measurement Focus/Basis of Accounting -

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets, deferred outflows and deferred inflows of resources, and liabilities (whether current or non-current) are included on the statement of net position and the statement of activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized at the time the liability is incurred. As a rule, the effect of interfund activity has been eliminated.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus/Basis of Accounting - (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, generally, 60 days is considered available. General property taxes and nontax revenues are recorded when received and investment earnings are recorded when earned. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures and expenditures related to compensated absences are recorded when paid for governmental funds.

D. Using Estimates -

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

E. Date of Management's Review -

Management has evaluated subsequent events through May 5, 2023, the date the financial statements were available to be issued.

F. Capital Assets -

Capital assets are defined by the District as assets with an initial individual cost of \$5,000 or more and an estimated life in excess of one year. Capital assets include property, plant, and equipment, infrastructure assets (e.g., roads, bridges, sidewalks, drainage and similar items), and intangible assets (i.e., internally generated computer software) and are reported in the government-wide financial statements. Property and equipment acquired or constructed for general governmental operations are recorded as expenditures in the fund making the expenditure and capitalized at cost in the government-wide financial statements.

All capital assets are valued at cost. Where cost could not be determined from the available records, estimated historical cost was used to record the estimated value of the assets. Assets acquired by gift or bequest are recorded at their fair market values at the date of transfer. Depreciation has been calculated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Useful Life</u>
Structures	25 to 40 years
Furniture and equipment	5 to 20 years

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Budgetary Control/Budget Basis of Accounting -

The District follows these procedures in establishing the budgetary data reflected in the financial statements -

1. During midsummer, the District prepares a proposed budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
2. Any revisions of the budget that alter the expenditures of any funds must be approved by the District's Board of Commissioners.
3. Formal budgetary integration is employed as a management control device during the year for the General and Debt Service Funds.
4. Budgets for the General Fund are adopted on a cash basis of accounting. The Budgetary Comparison Schedule - General Fund presents a comparison of budgetary data to actual results, as well as a reconciliation between the budgetary basis and GAAP basis of accounting. Budgeted amounts are as originally adopted or as amended by the District.
5. A budget has not been adopted for the special revenue fund because it is not legally required to do so.

H. Encumbrances -

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budget integration in the General Fund. Encumbrances outstanding at year-end are reported as reservations of fund balances since they do not constitute expenditures or liabilities. Encumbrances outstanding at year-end are provided for in the subsequent year's budget. There were no encumbrances outstanding at September 30, 2022.

I. Investments -

Investments are principally government securities. Government securities are stated at cost which approximates fair value at September 30, 2022. There were no investments as of September 30, 2022.

J. Allowance for Doubtful Accounts -

An allowance has been recorded for property taxes which are estimated to be uncollectible, as required by generally accepted accounting principles.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Interest Capitalization -

The District follows the policy of capitalizing interest as a component of the cost of property and equipment constructed for its own use.

L. Interfund Balances and Transfers -

Interfund receivables, payables, and transfers arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. The balances result from the time lag between the dates that reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made. Generally, interfund transactions pertain to debt service and capital outlay.

M. Adjustments -

The main components of the adjustments to the statement of net position are as follows:

Capital assets - Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds.

Long-term liabilities - Long-term liabilities that are not due and payable in the current period are not included in governmental funds.

Deferred Outflows/Inflows of Resources - Adjustments to net position are required for pension and other post-employment benefits. These adjustments are not included in governmental funds.

The main components of the adjustments to the statement of activities are as follows:

Capital assets - Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Long-term liabilities - Governmental funds report principal payments and debt as expenditures. However, the payments should not be reported as expense in the statement of activities, but as a reduction of debt in the statement of net position. Change in compensated absences does not require (or provide) the use of current financial resources and, therefore, is not reported as expenditure in governmental funds.

Deferred Outflows/Inflows of Resources - Change in compensated absences and OPEB obligations does not require (or provide) the use of current financial resources and, therefore, is not reported as expenditure in governmental funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Fund Balances/Net Position -

As of these financial statements, the District has adopted GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints:

Nonspendable -

Amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted -

Amounts that are restricted to specific purposes externally imposed by creditors, grantors, contributors, or imposed by the laws or regulations of other governments.

Committed -

Amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority (District Board). To be reported as committed amounts cannot be used for any other purpose unless the District takes the highest level action to remove or change the constraint.

Assigned -

Amounts the District intends to use for a specific purpose. Intent can be expressed by the Board of Directors or by an official or body to which the Board of Directors delegates the authority.

Unassigned -

Amounts that have not been restricted, committed, or assigned to specific purposes or other funds.

When the District incurs an expenditure for purposes for which various fund balance classifications can be used, it is the District's policy to use restricted fund balance first, then committed fund balance, assigned fund balance, and finally unassigned fund balance. The District establishes (and modifies or rescinds) fund balance commitments by passage of a resolution and formal action of the Board. This is done through adoption and amendment of the budget.

In the government-wide financial statements, net position represents the difference between 1) assets and deferred outflows of resources and 2) liabilities and deferred inflows of resources. Net position invested in capital assets are reduced by accumulated depreciation and by outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on their use by the board of directors, designation, or through the enabling legislations adopted by the District or through external restriction imposed by creditors, grantors or laws or regulations of other governments. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first and then unrestricted resources as they are needed.

O. Retirement Plan and Other Post-Employment Benefits -

Financial reporting information pertaining to the District's participation in the Texas County and District Retirement System (TCDRS) was prepared in accordance with Governmental Accounting Standards Board ("GASB") Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*.

Financial reporting information pertaining to the District's post-retirement healthcare and death benefits were prepared in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

NOTE 2 - CASH AND INVESTMENTS

The District invests funds that are not immediately needed in certificates of deposit or government securities. The Jefferson County Treasurer has been designated to make all investments for the District based on policies established by the District's Board of Commissioners. Deposits in financial institutions are required by statute to be secured and collateralized by the institutions. The collateral must meet certain requirements and be held in safekeeping by the Federal Reserve Bank for the benefit of the District and the market value of the pledged securities must total at all times the value of the deposits placed in the institutions less the amount protected by federal depository insurance. As of September 30, 2022, the deposits at Wells Fargo Bank were entirely insured by federal depository coverage and pledged securities.

A. Deposits -

At year-end, District's bank balances totaled \$141,974,542 and the carrying amount of these accounts was \$148,014,028.

B. Restricted Cash -

At year end, the District's General Fund had restricted cash in the amount of \$81,657. Cash was restricted for the use of promotions and development.

At year end, the District's Special Revenue Fund had restricted cash in the amount of \$36,609,374. Cash was restricted for the following:

Waterway user fee	\$ 30,271,738
Waterway security fee	6,337,636
Total	<u>\$ 36,609,374</u>

At year end, the District's Capital Projects Fund had restricted cash in the amount of \$86,523,640. Of this cash, \$20,871,812 was restricted for levee construction, \$175,232 was restricted for the District's Office Building, and \$65,476,596 was restricted for the Deepening project.

NOTE 2 - CASH AND INVESTMENTS (Continued)

C. Investments -

The investments that are represented by specific identifiable investment securities are classified as to credit risk by the three categories described below -

Category 1 - Insured or registered or securities held by the District or its agent in the District's name.

Category 2 - Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the District's name.

Category 3 - Uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the District's name.

As of September 30, 2022 all of the District's investments were classified as Category 1, as described above.

The District had no investments as of September 30, 2022.

Interest Rate Risk -

Fair value fluctuates with interest rates and increasing rates may cause fair value to decline below cost. In compliance with the District's Investment Policy, the District minimized interest rate risk by limiting the weighted average maturity of the portfolio to 1,096 days with a stated final maturity date not to exceed 3 years from the date of purchase. In addition, the portfolio is structured so that securities mature to meet cash flow requirements, thereby avoiding the need to sell securities prior to maturity and below the original cost.

Credit Risk -

In compliance with the District's investment policy, as of September 30, 2022, all of the District's purchased investments in U.S. Agency Securities were rated AA+ and Aaa by Standard & Poor's and Moody's, respectively.

Concentration Risk -

The District's investment policy is to diversify its portfolio to eliminate the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer, or a specific class of investment.

NOTE 3 - RECEIVABLES

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and payable by January 31 of the following year. Property values are assessed by the Jefferson County Appraisal District and taxes are collected by the County Tax Collector. The tax rate for 2021 was set at \$0.092067 per \$100 of appraised property value with a 20% homestead exemption and the tax rate for 2022 has been set at \$0.089005 per \$100 of appraised property value with a 20% homestead exemption. District property tax revenues are recognized when actually received. The amount of billed but uncollected taxes is included on the balance sheet with an offsetting "contra" account entitled "Deferred Revenue."

NOTE 5 - RETIREMENT PLAN

Plan Description -

The District provides retirement, disability, and death benefits for all of its full-time employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of more than 700 nontraditional defined benefit pension plans. TCDRS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 8 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after 10 years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Funding Policy -

The employer has elected the annually determined contribution rate (variable-rate) plan under the provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the employer is actuarially determined annually. The rate contributed for the months of the accounting years 2021 and 2022 was 9.29% and 11.84%, respectively. The deposit rate payable by the employee members for the months of the accounting year in both 2022 and 2021 was 7% as adopted by the governing body of the employer. The employee contribution rate and the employer contribution rate may be changed by the governing body of the employer within the options available in the TCDRS Act.

Contributions -

The required contribution was determined as part of the December 31, 2021 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at December 31, 2021 included (a) 7.50 percent investment rate of return (net of administrative expenses), and (b) projected salary increases of 4.7 percent. Both (a) and (b) included an inflation component of 2.5 percent.

Contributions - (Continued)

For the employer's accounting year ended September 30, 2022, the annual pension contribution for the TCDRS plan by its employees was \$70,067 and the employer cost was \$112,128. Contributions payable at September 31, 2022 for the employer portion of the pension expense was \$10,027 and the employee portion was \$5,928.

Net Pension Liability/ (Asset) -

	<i>December 31, 2020</i>	<i>December 31, 2021</i>
Total pension liability	\$ 2,441,265	\$ 2,679,553
Fiduciary net position	2,292,672	2,927,110
Net pension liability/(asset)	148,593	(247,557)
Fiduciary net position as a % of total pension liability	93.91%	109.24%
Pensionable covered payroll ⁽¹⁾	\$ 924,637	\$ 959,844
Net pension liability/(asset) as a % of covered payroll	16.07%	(25.79%)

The total pension liability was determined by an actuarial valuation as of the valuation date, calculated based on the discount rate and actuarial assumptions below:

Note: Rounding differences may exist above or in other tables in this report

⁽¹⁾ Payroll is calculated based on contributions as reported to TCDRS

Discount Rate -

Discount rate ⁽²⁾	7.60%	7.60%
Long-term expected rate of return, net of investment expense ⁽²⁾	7.60%	7.60%
Municipal bond rate ⁽³⁾	N/A	N/A

⁽²⁾ This rate reflects the long-term rate of return funding valuation assumption of 7.50%, plus 0.10% adjustment to be gross of administrative expenses as required by GASB 68.

⁽³⁾ The plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active, inactive, and retired members. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return, and the municipal bond rate does not apply.

Actuarial Methods and Assumptions Used for GASB Calculations -

All actuarial methods and assumptions used for this GASB analysis were the same as those used in the December 31, 2021 funding valuation, except as noted below and throughout this report. Please see the Sabine-Neches Navigation District of Jefferson County Texas December 31, 2021 Summary Valuation Report for further details.

Following are the key assumptions and methods used in this GASB analysis -

Valuation Timing	Actuarially determined contribution rates are calculated on a calendar year basis as of December 31, two years prior to the end of the fiscal year in which the contributions are reported.
Actuarial Cost Method	Entry age ⁽¹⁾ (level percent of pay)
Amortization Method	
Recognition of economic/demographic gains or losses	Straight-line amortization over expected working life
Recognition of assumptions changes or inputs	Straight-line amortization over expected working life
Asset Valuation Method	
Smoothing period	5 years
Recognition method	Non-asymptotic
Corridor	None
Inflation	2.50%
Salary Increases	4.7%
Investment Rate of Return	7.60% (Gross of administrative expenses)
Cost-of-Living Adjustments	Cost-of-Living Adjustments for Jefferson County Sabine-Neches Navigation District are not considered to be substantively automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB calculations. No assumption for future cost-of-living adjustments is included in the funding valuation.

⁽¹⁾ *Individual entry age normal cost method, as required by GASB 68, used for GASB calculations. Note that a slightly different version of the entry age normal cost method is used for the funding actuarial valuation.*

Mortality	
Depositing members	135% of Pub-2010 General Employees Amount-Weighted Mortality Table for males and 120% of Pub-2010 General Employees Amount-Weighted Mortality Table for females, both projected with 100% of the MP-2021 Ultimate scale after 2010.
Service retirees, beneficiaries and non-depositing members	135% of Pub-2010 General Retirees Amount-Weighted Mortality Table for males and 120% of Pub-2010 General Retirees Amount-Weighted Mortality Table for females, both projected with 100% of the MP-2021 Ultimate scale after 2010.
Disabled retirees	160% of Pub-2010 General Disabled Retirees Amount-Weighted Mortality Table for males and 125% of Pub-2010 General Disabled Retirees Amount-Weighted Mortality Table for females, both projected with 100% of the MP-2021 Ultimate scale after 2010.

Long-term Expected Rate of Return -

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2022 information for a 10 year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a long-term time horizon. The TCDRS Board of Trustees adopted the current assumption at their March 2021 meeting. The assumption for the long-term expected return is reviewed annually for continued compliance with the relevant actuarial standards of practice. Milliman relies on the expertise of Cliffwater in this assessment.

NOTE 7 - OTHER POST-EMPLOYMENT BENEFITS

The District provides certain post-retirement health care benefits to eligible retired employees and their spouses. The plan is a single-employer defined benefit plan and is administered by the District. To be eligible for this benefit an employee must be at least 60 years of age and have at least 8 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 75 or more.

Covered Benefits -

The employer covers 100% of the participant premium and 80% of the spouse premium.

Medicare Two Medicare options out of three covered:
Medicare Parts B, D, or supplement F/G premium paid fully by the Plan.
The Spouse Premium is covered 80%.

Spouse coverage The spouse of an eligible retiree may continue health care benefits while the member is still alive.

At September 30, 2021, the following employees were covered by the benefit terms:

	<u>2021</u>
Inactive employees or beneficiaries currently receiving benefit payments	-
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	13

Funding Policy -

The retiree medical plan is operated on a Pay-As-You-Go basis. There are no assets that have been segregated and restricted to provide for retiree medical benefits. For the year ended September 30, 2022, the cost of retiree health benefits, recorded on a pay-as-you-go basis was \$0.

Actuarial Methods and Assumptions -

Actuarial valuations for an ongoing Plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continuous revision as actual results are compared to past expectations and new estimates are made about the future. Although the valuation results are based on values the District's actuarial consultant believes are reasonable assumptions, the valuation result is only an estimate of what future costs may actually be and reflect a long-term perspective. Deviations in any of several factors, such as future interest rate discounts, medical cost inflation, Medicare coverage risk, and changes in marital status, could result in actual costs being greater or less than estimated.

Dental and Vision coverage Sabine-Neches Navigation District does not provide a subsidy for dental or vision coverage.

Actuarial Methods and Assumptions - (Continued)

The District's total OPEB liability for health care benefits was measured as of September 30, 2022, and was determined by an actuarial valuation as of October 1, 2021. The valuation includes all active employees and current retirees and their spouses who are currently receiving benefits under the retiree medical plan. Historical changes in the OPEB liability were used to roll forward the OPEB liability to the reporting date September 30, 2022.

The total OPEB liability in the September 30, 2022 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

NOTE 8 - LEASES

During the fiscal year ended September 30, 2022, the District adopted the Government Accounting Standards Board (GASB) Statement No. 87. The objective of the Statement 87 is to improve accounting and financial reporting for leases by governments. The statement requires the recognition of certain lease assets and liabilities for leases that were previously classified as operating leases. Under this Statement, a lessee is required to recognize a lease liability and an intangible leased asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The new lease standard had a significant effect on the District's statement of net position and governmental fund balance sheet and statement of activities and governmental fund revenues, expenditures, and changes in net position as a result of the leases described below that were previously classified as operating leases, including an increase of lease receivables, and deferred inflows.

NOTE 8 - LEASES (Continued)

The District serves as a lessee for the following leases:

Crain Brothers

The District leased a portion of land from Crain Brothers Ranch, Inc. The lease term commenced on June 1, 2003 and terminates May 31, 2053. The total payment for the year ended September 30, 2022 was \$9,627, of which \$ 9,366 was recognized as lease interest expense.

Crain Lands

The District leased a portion of land Crain Lands, LLC. The lease term commenced on June 1, 2003 and terminates May 31, 2053. The total payment for the year ended September 30, 2022 was \$9,722, of which \$9,459 recognized as lease interest expense.

The District enters into agreements where the District requests the use of a party's land to deposit spoil and other excavated material removed as a result of the deepening, widening, and maintenance and use of the Sabine Neches Waterway. These spoil servitude agreements are written and are executed similarly to lease agreements. Therefore, the District accounts for spoil servitude agreements in the same manner. The District serves as a grantee for the following spoil servitude agreement:

BP America

On October 17, 2006, the District entered into a spoil servitude agreement with BP America Production Company for the use of depositing spoilage. The agreement terminates October 16, 2056. The total payment for the year ended September 30, 2022 was \$22,119, of which \$21,582 was recognized as lease interest expense.

The discounted lease liabilities at September 30, 2022 are as follows:

NOTE 9 - FUND BALANCE/NET POSITION

Classification of fund balances for the governmental fund statements are summarized below.

A. Restricted for Promotion and Development -

A restriction of net position of \$81,657 will be used for District promotional and development efforts.

B. Restricted for Special Revenue -

This fund will be used for future waterway security expenses.

C. Assigned for Operating Reserve - (Governmental fund financials only)

An assignment of net position in the amount of 25% of the original, board-approved budget expenditures for the fiscal year will be used as an operating reserve for the operations of the Sabine-Neches Navigation District.

D. Assigned for Capital Projects - (Governmental fund financials only)

An assignment of net position in the capital projects fund will be used for the Deepening and Widening project of the Sabine-Neches Waterway District.

NOTE 10 - COMMITMENTS AND CONTINGENCIES

In June of 2014, the President signed into law the Water Resources Reform and Development Act authorizing several projects across the country, including the Sabine-Neches Waterway Channel Improvement Project. This project will deepen the waterway to 48 feet allowing for increased capacity utilization of deep draft vessels into the Sabine-Neches Waterway.

With the 114th Congress' passage of the 2016 Water Resources Development Act, the local cost share for the project was effectively reduced by roughly \$100 million dollars. Subsequently, Congress provided \$557,000 in its 2022 Work Plan Fund to the United States Army Corps of Engineers to begin Preliminary Engineering and Design (PED).

Along with the District's cost share responsibility of the deepening project, the District is also responsible for 50% of the cost of all utility relocations necessary for the channel deepening, as well as providing lands and easements. The District is currently exploring avenues of raising funds for its portion, which is in excess of \$300 million of the \$1.28 billion dollar project, as well as advocating for the Federal Appropriations in order to begin the construction of the project.

The Fiscal Year 2019 Work Plan provided by the 115th Congress in November of 2018 appropriated \$18 million dollars to the United States Army Corps of Engineers to fund the new start construction of the project. Construction began the fourth quarter of fiscal year 2019.

NOTE 11 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Most of these risks are protected by insurance. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

NOTE 12 - INTERFUND TRANSFERS

The District transferred funds from the General Fund to the Capital Projects Fund to reserve monies for capital outlay expenditures in the amount of \$15,307,557 and to the Debt Service Fund for 2022 debt service payments in the amount of \$1,000,698.

NOTE 13 - PRIOR PERIOD ADJUSTMENTS

During the fiscal year ended September 30, 2022, the District adopted the Government Accounting Standards Board (GASB) Statement No. 87. The result of the adoption increased beginning net position by \$41,468. During the year end preparation of financial statements, it came to the attention of the District that there were several years of unpaid lease expenses in relation to the BP America Spoil Servitude agreement. The recording of the payable and correction of expense resulted in a decrease in beginning net position by \$57,700. The net change to beginning net position was decrease in the amount of \$16,232.

NOTE 14 - WATERWAY USER FEES

The Sabine-Neches Navigation District (SNND) exercises jurisdiction over all vessels using the Sabine Neches Waterway (waterway). As the non-federal sponsor for the Sabine Neches Waterway Channel Improvement Project (project), SNND is authorized by 33 USC §2236 to levy fees to finance the non-Federal share of costs of the project.

SNND Board authorized that as of May 1, 2021, all vessels carrying cargo on the waterway whose design draft exceeds 20 feet will be subject to paying a user fee, the applicability of which is defined in the Federal Register notice published on January 28, 2021.

The User Fee Ordinance establishes an initial fee rate of \$0.20 per short ton for hydrocarbon cargo, and \$0.02 per short ton for non-hydrocarbon cargo. For the purposes of the user fee, hydrocarbon is defined as oil, gas, ethanol, methanol, a commodity or product made or manufactured - in whole or part - from oil or gas, and derivatives or byproducts or fractions of oil or gas all regardless of their physical form and including mixtures of any or all of the above. The fee rate will be reviewed by SNND at 12-month intervals and can be adjusted to a maximum fee rate of \$0.35 per short ton for hydrocarbon cargo, and \$0.035 per short ton for non-hydrocarbon cargo.

The user fee does not apply to:

- vessels owned, chartered, or operated by the United States government, a foreign country, a state, or a political subdivision of a country or state, unless engaged in commercial services
- vessels engaged in towing, dredging or channel maintenance activities
- vessels engaged in intra-port movements, or
- vessels with design drafts of 20 feet or less

The vessel and cargo owner are jointly responsible for the payment of user fees, which are due and payable upon the 15th of the month following the month in which the vessel and cargo used the waterway. User fee revenues were \$22,761,420 for the year ended September 30, 2022.

NOTE 15 - INTER-LOCAL AGREEMENT

Sabine Neches Navigation District (SNND), entered into an Inter-local agreement between the Port of Beaumont Navigation District of Jefferson County and the Port of Port Arthur Navigation District of Jefferson County.

SNND is the non-federal sponsor for the Sabine-Neches Waterway. As sponsor, the SNND receives the appropriated funds from the United States Army Corps of Engineers, Galveston District per Section 2106 of the Water Resources Reform and Development Act of 2014, subject to the availability of funds, to provide funds to donor ports to be used for certain purposes as defined in Section 210(f) of the Water Resources Development Act of 1986, as amended (33 U. S. C. 2238(f), or environmental remediation related to dredging of berths and federal navigation channels.

During the year ended September 30, 2022, SNND received \$1,237,500 from the United States Army Corps of Engineers, Galveston District under this agreement and transferred that amount to the Port of Beaumont Navigation District.

NOTE 16 - TAX ABATEMENT

Over the years, Sabine-Neches Navigation District has agreed to multiple tax abatements to provide incentive to owners of real property who propose a project to develop, redevelop, or improve eligible facilities. The incentives will consist of a limited special exemption from certain taxes provided the owner agrees to accept and abide by the policy and that the real property is located in a lawfully created reinvestment or enterprise zone. Most of the tax abatement agreements include provisions for default and recapture of abated tax. As a result of tax abatement agreements, the total value lost due to abatement for the year ended September 30, 2022 was \$3,438,889,723 with a reduction in tax revenues of \$3,060,784.

NOTE 17 - SUBSEQUENT EVENT

Events that occur after the statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statements of net position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of financial position date require disclosure in the accompanying notes. Management evaluated the activity of the District through May 5, 2023 (the date the financial statements were available to be issued).

Subsequent to year-end, Sabine-Neches Navigation District issued \$192,580,000 of Series 2022 Limited Tax Bonds. The bonds are secured by Ad Valorem Taxes collected by Sabine-Neches Navigation District and are paid for from the Maintenance and Operations tax.

NOTE 17 - SUBSEQUENT EVENT (Continued)

Also subsequent to year-end, Sabine-Neches Navigation District received a letter from a group of companies acting cooperatively to remediate the Star Lake Canal Superfund Site. The letter states that the District is the potentially responsible party for a portion of remediation and other costs at the site. Additionally, the District has received a letter from the United States Environmental Protection Agency (the EPA) also claiming that the District is the potentially responsible party, demanding payment of the remediation costs at the site, and encouraging cooperation with the existing group of companies. The District has corresponded with the group of companies and responded to the EPA offering to negotiate an equitable contribution from the District. Discussions and exchanges of information are ongoing, but the liability associated with this threatened litigation is from \$10,000 to \$4,000,000.

NOTE 18 - PENDING LITIGATION

Sabine-Neches Navigation District (SNND) enactment of a User Fee Ordinance has been challenged in court by BG Gulf Coast LNG, LLC and Phillips 66 Company, claiming that the User Fee Ordinance must be invalidated, and the money collected under the ordinance should be refunded as it is unconstitutional. Through May 5, 2023, over \$43,000,000 has been collected under the ordinance. All funds collected are retained in a separate bank account in the event that refunding is required.

The District has vigorously defended the matter by filing a motion to dismiss the complaint. The federal district court granted the District's motion dismissing the complaint in its entirety. An appeal was filed with the United States Court of Appeals for the Fifth Circuit where a three-judge panel unanimously affirmed the district court ruling and denied the subsequent motion for rehearing. A petition for certiorari has been filed with the United States Supreme Court. The District has responded to the petition and anticipates the matter being submitted to the justices of the Supreme Court in May 2023. If the Supreme Court were to grant certiorari and then reverse the district court ruling, the original claims would be revived. The District believes it is more likely the Supreme Court will not grant certiorari but the final outcome is not certain.

No assets are accumulated in a trust that meets the criteria in GASB No. 75, paragraph 4, to pay related benefits.

This schedule is presented to illustrate the requirement to show information for 10 years. However, recalculations of prior years are not required, and if prior years are not reported in accordance with the standards of GASB 75, they should not be shown here. Therefore, we have shown only years for which the new GASB statements have been implemented.
